Red Crimson Basil

Ocimum basilicum

Red or purple basils usually have two problems: either they have "off types" -- or plants with green foliage -- or they have weak stems and fail to stay upright in the garden -- or both. This red Genovese basil solves both problems. Quite simply it is the most uniform and best tasting red or purple basil available.

Excellent vigour, colour, flavour and aroma.

Ht. 60-75cm (2-2.5ft).
