

Country Garden Greenhouse

Chinook Hops

Super alpha hybrid variety with high vigour and yield. It is a dual purpose variety with good bittering and flavoring qualities and heavy aroma. The aroma is spicy, pine-resiny, with grapefruit notes. Popular with both craft and major brewers -- a real “workhorse” hop. Cross between Peltham Golding and 63012M. Alpha acids 10-14%. Perennial (hardy in zones 3-8)
